

ADVERTISING RATES

As the largest Business Broking firm in the country, we have over 1000 businesses for sale on our website. This generates a minimum of 100 000 hits per week, of potential buyers/investors looking for the right opportunity for themselves.

In an effort to provide additional business-related services we would like to invite your company to advertise on our website. Our clientele requires a variety of services utilised in the general day to day running of their companies, in addition to financing the business. We will advertise accountants, attorneys, insurance specialists, web designers and IT companies, finance houses, banks and training specialists.

Advertising can be zone specific to your area, or countrywide, depending on your target market. I have attached our rate sheet for your perusal.

Should you have any queries please don't hesitate in contacting our offices.

Yours faithfully

Michele Wright
